

Congratulations to the 92 students who attained the highest scale score possible in both English Language Arts/Literacy and Mathematics on tests more formally known as the Smarter Balanced Assessment Consortium. In the 2019 assessments, 375 students Districtwide attained the highest scale score possible in English Language Arts/Literacy and 207 in Mathematics on the Smarter Balanced Assessment Consortium. The students who aced both subjects were recognized by the Board of Education at a special ceremony on Thursday evening. Guess you could say the students are, ahem, equally balanced in their skill sets.

The students include:
