4. CRITERION: LCFF Revenue

STANDARD: Projected local control funding formula (LCFF) revenue for any of the budget year or two subsequent fiscal years has not changed from the prior fiscal year by more than the change in population, plus the district's gap funding or cost-of-living adjustment (COLA)¹ and its economic recovery target payment, plus or minus one percent.

For basic aid districts, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.

For districts funded by necessary small school formulas, projected LCFF revenue has not changed from the prior fiscal year amount by more than the district's gap funding or COLA¹ and its economic recovery target payment, plus or minus one percent.

¹ Districts that are already at or above their LCFF target funding as described in Education Code Section 42238.03(d) receive no gap funding. These districts have a COLA applied to their LCFF target, but their year-over-year revenue increase might be less than the statutory COLA due to certain local factors and components of the funding formula.

Explanation: (required if NOT met)

The projected changes in LCFF revenue in 2020-21, 2021-22, and 2022-23 are outside the standard due to the projected deficit COLA of (7.92%) in 2020-21 and 0% in future years, which are based on the Governor's May Revise.

5C. Comparison of District Salaries and Benefits Ratio to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - Projected ratio(s) of unrestricted salary and benefit costs to total unrestricted expenditures are outside the standard in one or more of the budget or two subsequent fiscal years. Provide reasons why the projection(s) exceed the standard, a description of the methods and assumptions used in projecting salaries and benefits, and what changes, if any, will be made to bring the projected salary and benefit costs within the standard.

Explanation: (required if NOT met)

Total unrestricted expenditures for 2021-22 and 2022-23 include estimated reductions in the Other Adjustments section of the MYP of \$20 million and \$17 million, respectively, in order to meet the required minimum 3% reserve level. If the District proposed \$20 million reduction is implemented at 90.6%, the historical average ratio of unreestricted salaries and benefits to total unrestricted expenditures, the 2021-22 ratio would be reduced to 90.8%. Additionally, if the \$17 million reduction in 2022-23 is implemented at the same ratio, the ratio will be reduced to 91.0%

6. CRITERION: Other Revenues and Expenditures

STANDARD: Projected operating revenues (including federal, other state, and other local) or expenditures (including books and supplies, and services and other operating), for any of the budget year or two subsequent fiscal years, have not changed from the prior fiscal year amount by more than the percentage change in population and the funded cost-of-living adjustment (COLA) plus or minus ten percent.

For each major object category, changes that exceed the percentage change in population and the funded COLA plus or minus five percent must be explained.

1st Subsequent Year (2021-22)

2nd Subsequent Year (2022-23)

The 2020-21 increase is due primarily to the carryover of site funds from the 2019-20 school year, which are expected to be spent in this category in the budget year. The primary reason for the decrease in 2021-22 is the reduction of supplemental and concentration grant funds budgeted in the 4000 object category.
