TUTORING

The Board of Education maintains a competent, dedicated staff and adequate instructional resources to minimize the need for individual student tutoring.

When parents wish their children to be tutored by any member of their child's school staff, the following rules shall apply:

1. A teacher may not accept any kind of remuneration for tutoring any student enrolled or participating in his/her class during the regular school day or extended school day.
2. No tutoring for which a teacher receives a fee will be performed on any District property.
3. Teachers who accept outside tutoring engagements shall make their own arrangements with the parents/guardians for the fees to be assessed and the off-District location where services will be provided.

Students will not be excused for tutoring during the school day. Tutoring shall not be required for promotion of students.

Teachers or others shall not solicit students and/or parents regarding tutoring services.
