

A message from Dr. Francisco Escobedo in response to input from DAC/DELAC membership:

I appreciate our wonderful parents and our DAC/DELAC representatives who took the time to share their thoughts in regards to the proposed revision to our LCAP goal number 2, specifically the resource teacher action and service. I appreciate your advocacy for one or more of the recommendations and want you to feel confident that our District will continue to monitor assessment data and survey data to best support the needs of our students, empowering our stakeholders through the input process. As we move forward, we will consider expanding the LCAP input process for the next three-year cycle that begins next year.
